# CYBERSECURITY

## ARE YOU FAMILIAR WITH CYBERSECURITY?

What is Cybersecurity?

Cybersecurity is the practice of defending computers or any type of technology that is internet connected from any potential threats.

## IS CYBERSECURITY IMPORTANT?

Why do we have Cybersecurity in the City of Jackson?

In the City of Jackson, we have very important data and information that we access every day. We must protect the data, information, and computers that we use on a day-to-day basis

## IS THERE ANYTHING THAT I CAN DO?

What can I do as a COJ employee to keep all of my technology secure and safe?

- Do not open unfamiliar emails
- Only use secured sites
- Keep your device updated
- Change your password every 90 days
- Contact Information Technology if you see anything suspicious.
